

FASTI 4 MAX

FASTI 4 MAX has more equipment than the basic version - a comfortable seat with a high, adjustable backrest, adjustable armrests and a lithium-ion battery. It can be removed and charged outside the vehicle.

FASTI 4 MAX is the new, most comfortable unbuilt vehicle facilitating movement of the ELECTRORIDE brand.

It has a medical certificate, which in many countries exempts you from the obligation to register and have a driving license and makes the FASTI 4 MAX model treated as a pedestrian in road traffic. This makes it possible to walk on the sidewalk, enter a park or even a shopping mall!

Technical data:

-  1000 W engine
-  independent suspension
-  maximum speed 25 km/h
-  maximum range 55/100 km*
-  weight including batteries 110 kg
-  maximum loading capacity 135 kg
-  li-ion battery 60V20Ah
-  charging time 4-8 h
-  charging voltage 220-240V
