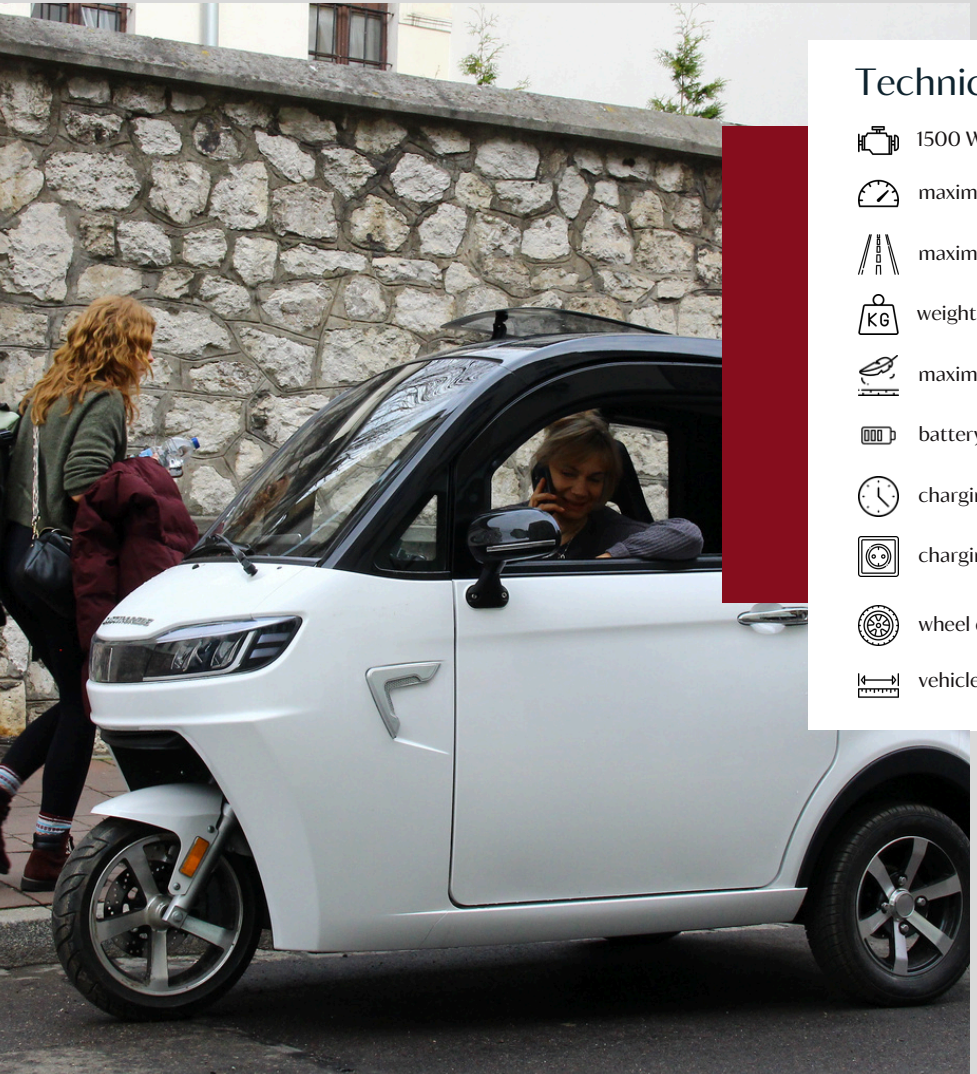
FUTURI 3

is the most universal cabin tricycle among the ELECTRORIDE vehicles!

It is comfortable and very spacious. The extremely wide opening angle of the doors makes it much easier to get in and out, and the large and comfortable rear seat makes the journey a pleasure also for the passenger.

Futuri 3 is very universal when it comes to using the brakes. It allows you to operate them both with the handle on the steering wheel and the typical car foot brake.

As one of the ELECTRORIDE cabin vehicles it allows you to enjoy driving in almost any weather, the roof protects against light rain and wind, and in the summer the sunroof, electric windows and air vents provide a breeze of light breeze!



Technical data:

- 1500 W engine
- maximum speed 45 km/h
- maximum range 75 km
- weight including batteries 380 kg
- maximum loading capacity 251 kg
- battery set 60V58Ah
- charging time 4-8 h
- charging voltage 220-240V
- wheel diameter front - 13", rear- 12"
- vehicle dimensions 2400x1225x1630 mm
