

FUTURI 4

is the first cabin four-wheeler in the ELECTRORIDE vehicle offer. Both in appearance and functionality it resembles a small electric car.

Thanks to the traditional car steering wheel, the operation of this model is simple and intuitive, and the accelerator and brake pedals allow for dynamic driving around the city and beyond.

The wide opening angle of the doors makes the vehicle even more comfortable and adapted to all needs, and the spacious passenger compartment will also work well when shopping!

The Futuri 4 has a color rear view camera that makes maneuvering this compact vehicle even easier.

Technical data:

-  2000 W engine
-  maximum speed 45 km/h
-  maximum range 75 km
-  weight including batteries 425 kg
-  maximum loading capacity 260 kg
